

2010 SPEED UNLIMITED MIDNIGHT MADNESS SERIES

... MIR'S WEEKLY SERIES EXCLUSIVELY FOR STREET CARS & STREET BIKES

Welcome to the Speed Unlimited Midnight Madness Street Car Series. These events are for Street Legal Cars and Motorcycles only, no racecars allowed. MIR hosts this series to accommodate racers in a fun, safe, and legal racing environment. Entering Midnight Madness is easy, admission is just \$10 to watch, \$20 to race. Fill out the tech card, and report to tech (located in staging lanes #10 & #11). A tech inspector will give your car a quick safety inspection and assign you a permanent number. You are now ready to make practice runs or match race your friends in a safe environment. If you want to race a particular car, stay behind one another in the same staging lane, and let the staging official at the front of the lanes know, and they will assist you. Just win three rounds of eliminations and receive a trophy! We hope you have fun at the Speed Unlimited Midnight Madness series, Good luck!

The Midnight Madness Express Tech Program (Express Tech = Decal, Completed Tech Card and Numbers on Car) is available at the rear of the tech line for those that meet the requirements. To receive express tech, you must first have your car inspected and then place your Speed Unlimited Midnight Madness decal with your permanent number on the left lower portion of the windshield or on any window on the left side of the car. Then during future Midnight Madness events, before coming to the tech line you must have your tech card completely filled out (with your car number) and signed on the back. You must also have your car number displayed on the front windshield and right side window both large and visible. You will not receive "Express Tech" unless you have completed these requirements before coming to tech. If you come to tech and then fill out your tech card, you will have to wait in line.

⌘ Schedule ⌘
